-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 31-35, 39-41 and 48-51 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention and species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 13.

Claim 57 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Examiner finds no difference no 56 and 57.

Claims 15, 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

"Strong chelating agent" is relative, undefined and indefinite the agents should be identified in the claim, if not defined in the specification.

Claims 1-10, 13-22, 25-30, 36-38, 42-47, 52-57 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kappock et al 5,939,203.

The rejection of record is maintained; new claims in essence with in the parameter of the open language and about the range of claim 1, 53.

Claims 1-22, 25-28, 36-38, 47, 52, 53, 55-57 are rejected under 35 U.S.C. 102(b) as being anticipated by Park-1997-010124.

The rejection of record is maintained; new claims in essence with in the parameter of the open language and about the range of claim 1, 53.

Claims 1-30, 36, -38, 42-46, 53, 55-57 are rejected under 35 U.S.C. 102(b) as being anticipated by Wiere – 5,227,156.

The rejection of record is maintained; new claims in essence with in the parameter of the open language and about the range of claim 1, 53.

Applicant's arguments filed on 10/14/03 have been fully considered but they are not persuasive. Applicant argues examples show the presence or absence of those components applicant wishes to include, or exclude. Since the claims examined are to compositions, and no showing is evident that they do not have function in either the included or excluded component variations, we will accept that, at the levels of analytical capability presented: 0.0001%, the compositions as claimed can be considered to include, or be free from the claimed components. Regarding the issue of what is meant by "about at least", or "greater than about", we find the language less than precise, and in conflict with exemplification of included or greater degree of latitude is intended, and find this acceptable. We also find the prior art precludes allowance, as it can be construed to meet these relative ranges.

Applicant's arguments are further directed to the advantages and rationale for applicant's invention, not presented in the prior disclosures. However, the claims before us are compositions; met and obvious over the prior art of record.
